UNILIN, division panels

UNILIN, division panels – part of the UNILIN group – has been supplying innovative wood based solutions for building and interior design projects since 1960. Our chipboard, medium density fibreboard (MDF), High-Density fibreboard (HDF), High Pressure Laminate (HPL) and melamine-faced chipboards find their way to merchants in building materials and timber, industrial processors and DIY-chains worldwide.

We develop solutions tailored to your specific needs with creativity and innovation as the key drivers of our business. We continuously invest in product design and new technologies. Hence, we're recognized as a leading international player and a reliable partner in in our niche sector.

Our 1,300 employees give their all, day after day, at our production units in Belgium, France, Germany and the Netherlands. Altogether we produce 2.1 million m³ of panels per year.

The information provided is correct at the time of printing. For the most recent version of our stocklist, please consult our website.

FSC/PEFC

All articles in this stock list can be ordered with FSC or PEFC certificates.

Contact our sales team for more information.

NON-STANDARD

For non-standard panel types & sizes, Unilin has flexible presses & high-capacity saws that support all sawing dimensions. In principle, all thicknesses and lengths / widths are possible within the press & saw capabilities.

FREE SAMPLE SERVICE

Of all stock grades, samples are available.
