

TECHNICAL DATA SHEET

Material Specification:

Melamine faced wood based panel with decorative surface. The substrate can be either Unilin Raw Chipboard or Unilin Raw MDF.

Area of application:

Decorative wood based panels for interior uses.

CLEANING AND CARE INSTRUCTIONS

Due to their resistant and hygienic surfaces, Unilin Melamine faced products do not require any special maintenance. The surface is generally easy to clean; this also applies to textured surfaces.

The recommended cleaning methods are as follows:

LIGHT/FRESH SOILING

Clean with a paper towel, a soft clean cloth (dry or damp) or a sponge.

If using damp cloth, dry the surface with an absorbents paper towel or microfiber cloth.

NORMAL SOILING – EXTENDED CONTACT TIME

Clean with warm water, a clean microfiber cloth, a soft sponge or soft brush. Take care that the use of water during cleaning is not too generous. Use normal domestic cleaners or soaps that have no abrasive ingredients. The cleaning agent should be directly spread on the dirt spot when cleaning. Then wipe with fresh water, removing all traces of cleaning agent, to prevent streaks forming. Dry the surfaces with a clean absorbent cloth or paper towel.

The following cleaning agents should not be used under any circumstances:

- Scouring and abrasive agents (Scourings pads, Steel wool)
- Polish, washing powders, furniture cleaner, bleach
- Detergents with strong acids and salts
- Steam cleaning equipment.
