

**DECLARATION OF PERFORMANCE (acc. EU 305/2011, Annex V)**  
**FiberTechTop\_18-60**

1. Unique identification code of the product-type: **FiberTechTop\_18-60\_v1**
2. Type, batch or serial number or any other element allowing identification of the construction product as required under Article 11(4) of the CPR : **see product label**
3. Intended use or uses of the construction product, in accordance with the applicable harmonised technical specification, as foreseen by the manufacturer: **Thermal insulation for buildings**
4. Name, registered trade name or registered trade mark and contact address of the manufacturer as required under Article 11(5): **Unilin, division panels, Ingelmunstersteenweg 229, B-8780 Oostrozebeke**
5. Where applicable, name and contact address of the authorised representative whose mandate covers the tasks specified in Article 12(2): **not relevant**
6. System or systems of assessment and verification of constancy of performance of the construction product as set out in CPR, Annex V: **AVCP 3**
7. In case of the declaration of performance concerning a construction product covered by a harmonised standard:  
**Notified certification body No. 0432 MPA Nordrhein-Westfalen performed the determination of the product type on basis of type testing and type calculation**
8. Declared performance

Table 1

| Essential characteristics                                 |   | Performance   | Harmonised technical specification |
|---|---|---|------------------------------------|
| Reaction to fire  | 4.2.6 Reaction to fire                            | Class E   | <b>EN<br/>13171:2012</b>           |
| Release of dangerous substances to the indoor environment | 4.3.15 Release of dangerous substances            | NPD   |                                    |
| Acoustic absorption index                                 | 4.3.12 Sound absorption                           | NPD   |                                    |
| Impact noise transmission index<br>(for floors)           | 4.3.10 Dynamic stiffness                          | NPD   |                                    |
|   | 4.3.11.1 Thickness dL                             | NPD   |                                    |
|   | 4.3.11.3 Compressibility                          | NPD   |                                    |
|   | 4.3.13 Air flow resistivity                       | AF <sub>r</sub> 100   |                                    |
| Direct airborne sound insulation index                    | 4.3.13 Air flow resistivity                       | AF <sub>r</sub> 100   |                                    |
| Continuous Glowing combustion                             | 4.3.17 Continuous glowing combustion              | NPD   |                                    |
| Thermal resistance  | 4.2.1 Thermal resistance and thermal conductivity | Thermal resistance see table 2<br>$\lambda_D$ 0,048 W/(m*K) |                                    |
|   | 4.2.3 Thickness                                   | See product label   |                                    |
|   | 4.2.3 Thickness Class                             | T5  |                                    |
| Water permeability  | 4.3.8 Short term water absorption                 | WS1,0   |                                    |
| Water vapour permeability                                 | 4.3.9 Water vapour transmission                   | NPD   |                                    |

Table 1 (continued)

| Essential characteristics   |  | Performance   | Harmonised technical specification |
|---|--|---|------------------------------------|
| Compressive strength  | 4.3.3 Compressive stress or compressive strength         | CS(10\Y)200   | <b>EN<br/>13171:2012</b>           |
|   | 4.3.6 Point load   | NPD   |                                    |
| Durability of reaction to fire against heat, weathering, ageing/degradation   | 4.2.7 Durability characteristics                         | NPD   |                                    |
| Durability of thermal resistance against heat, weathering, ageing/degradation | 4.2.1 Thermal resistance and thermal conductivity        | Thermal resistance see table 2<br>$\lambda_D 0,048 \text{ W}/(\text{m}\cdot\text{K})$ |                                    |
|   | 4.2.7 Durability characteristics                         | NPD   |                                    |
|   | 4.3.2 Dimensional stability                              | NPD   |                                    |
|   | 4.3.2.2 Dimensional stability under specific temperature | DS(70,-)2   |                                    |
| Tensile/Flexural strength   | 4.3.4 Tensile strength perpendicular to faces            | TR30  |                                    |
|   | 4.3.5 Tensile strength parallel to faces                 | NPD   |                                    |
| Durability of compressive strength against ageing/degradation                 | 4.3.7 Compressive creep                                  | NPD   |                                    |

Table 2

|  |      |      |      |      |      |
|--|------|------|------|------|------|
| Thickness d [mm]                                 | 22   | 24   | 35   | 52   | 60   |
| Thermal resistance $R_D$ [(m <sup>2</sup> *K)/W] | 0,45 | 0,50 | 0,70 | 1,05 | 1,25 |

9. The performance of the product identified in points 1 and 2 is in conformity with the declared performance in point 8.  
This declaration of performance is issued under the sole responsibility of the manufacturer identified in point 4.
