

UNILIN Evola-Fibromax[®]

Melamine faced non-structural MDF board for interior and furniture available in an extensive range of UNILIN Evola designs

UNILIN Evola-Fibromax is a melamine faced high density MDF board (MDF according EN 622-5) with a hard, fine and smoothly sanded surface. UNILIN Evola-Fibromax can be used for non-loading bearing applications in dry conditions. This board has low formaldehyde emission (E1 class). UNILIN Evola-Fibromax is made from 100% recovered wood: 100% pre-consumer wood from waste flows from the wood industry or thinned wood from sustainable forestry and verge management.
